III Tuition Waivers

The Maricopa Community College District waives County Resident tuition & student activity fees for employees and their dependents and for legislatively mandated groups. Special fees and fees for Non-credit/Special Interest Community Services courses are not waived.

According to Arizona Revised Statute, 15-1802 F, "A person who is a member of an Indian tribe recognized by the US Department of the Interior whose reservation land lies in this state and extends into another state and who is a resident of the reservation is entitled to classification as an in-state student." Therefore, unclassified and out of state surcharges do not apply to such students.

Admission criteria to attend a college within the Maricopa County Community College District (MCCCD) is determined in accordance with state law (ARS 15-1805.01 and 15-1821) and regulations of the Maricopa Community Colleges Governing Board and the Chancellor. As such, participants enrolled in courses in courses as part of third party agreements are also subject to the same admissions criteria. This includes the participant resolving any current enrollment or administrative holds that are unrelated to the third party in existing student account, but that otherwise impact his/her eligibility to enroll in courses or participate in programs delivered by MCCCD faculty or staff.
