CITIZEN’S INTERIM

The following individuals came forward during Citizens Interim:

Bianca Rodriguez came forward representing the Wellness Program to express support for the Smoke Free/Tobacco Free Maricopa initiative. She stated this tobacco free policy shows that the organization cares about the health of its employees, students and the community.

Bob England, Maricopa County Department of Public Health, came forward to applaud the Chancellor and the Maricopa Organization for its decision to create a smoke free environment. He stated it was not a nicety but it was a decision that would affect students, employees and the community at large more than we are aware of. He stated that each year tobacco results in $1/4 billion in healthcare costs and ¼ of young adults still smoke. Education can only do so much and it has been tried out. Policies such as this, as well as voter initiatives, do more to encourage people to quit smoking. They incent people on the fence to quit smoking in many cases. Many lives will be saved and the health of employees and students will be affected positively. Speaking as a former community college student of this organization, he indicated the organization was showing the way for many people.

Tim Vaske, Arizona Department of Health Services Bureau of Tobacco and Chronic Disease, commented that his organization is responsible for suggesting ways to reduce and prevent diseases, including tobacco diseases, heart disease, stroke, lung disease, diabetes, etc. By implementing a smoke free policy, the organization is creating an environment that will help people quit. The Arizona Department of Health Services Bureau of Tobacco and Chronic Disease is available to offer assistance to individuals that desire to quit. Cessation programs are available telephonically at 1-800-55-66-222, as well on-line on their website.

BOARD MEMBER REPORTS

Board Member Doyle Burke reported he attended the Red Mountain Ten Year Anniversary earlier in the month. Good to hear that they have about 4,500 students registered. He also attended a meeting at Rio Salado College regarding preparing students to go to college. Rio partners with K-12 and the universities on this effort.

Board Member Dana Saar reported that the Arizona School Boards Association will be holding their annual conference on December 14-16. This conference is a good way to pick up on best practices.

President Lumm reported that four of five board members attended the annual ACCT conference in Dallas where they were able to listen to many good sessions, two of which were conducted by Maricopa. Mr.
Lumm also expressed appreciation to Estrella Mountain Community College for hosting the Board and providing information on their accreditation, enabling the Board to be better prepared.

Board Member Debra Pearson commented that during the course of attending the ACCT conference she became aware that many colleges across the country were not able to do as many programs as Maricopa because of the financial situation they found themselves experiencing. She expressed appreciation to Chancellor Glasper for the stability that Maricopa is fortunate to have. She also expressed appreciation to Dr. Maria Harper-Marinick for accommodating her request for more information on the Curriculum action items in that more information is available on the active links provided within the item. The public can now click on the course number for more information.

CHANCELLOR’S REPORT

Chancellor Glasper clarified that earlier in the meeting the Non-Smoking Initiative had been referred to as a policy but is currently an administrative regulation and activity. He indicated that he would move this forward as a policy if the Board desired. Secondly, the Chancellor announced that under the Sustainability Initiative, Maricopa was undertaking an innovative step forward and launching a paper reduction initiative starting October 26 which would run for one year and then the progress made would be measured. The goal would be to reduce our paper usage by 10% over the course of one year. Employees would be asked to sign a pledge to reduce paper usage and the goal would be 10,000 signed pledges. Because Mr. Saar had participated in a Sustainability presentation at the ACCT Leadership Congress, he asked Mr. Saar to comment on this. Mr. Saar indicated that paper usage is more than sheets of paper, it was also the use of ink cartridges, toner, and a printer for individual employees. He stated that this would require a change in lifestyle. The key is to make a change to using PDFs. This would be a start and people will begin getting accustomed to this. As a result paper reduction should be recognized in the next year along with greater efficiency.

The Chancellor requested that SCC President Dr. Jan Gehler provide comments on the Sustainability Initiative. She stated that she, Vice Chancellor Debra Thompson and Executive Vice Chancellor and Provost Dr. Maria Harper-Marinick were tri-chairs of the Sustainability Council. The Council has representatives from all the campuses and they are the implementers. Thomas Williams from SCC is the Sustainability Coordinator. Speaking next, Thomas Williams introduced a brief video and explained that the Council is hoping for a 10% reduction in paper. The use of iPads and storing docs on the iPads or computers should help in this effort. The paper reduction initiative will begin on October 26 and people signing pledges to reduce paper will receive mugs and wrist bands. Paper reduction will be tracked through IKON. Currently 620,000 pounds of paper are used per year. The campaign will end on
October 26, 2012.

The Chancellor further commented on the two presentations made by Maricopa at the ACCT National Congress in Dallas which allowed for the showcasing of our programs. Next he made reference that on August 17 members of the Chancellor Executive Council signed a Commitment of One Maricopa. He indicated that those in attendance would hear from all members of CEC on how they planned to move this forward creating efficiencies and focusing on what it means to us as a system. He stated it was important for CEC to visibly demonstrate the following five practices recommended by Kouzes and Posner:

1. Modeling the Way
2. Implement Shared Vision of Student Success
3. Challenging the Process of What We Do
4. Enabling Others to Act
5. Encouraging the Heart

This effort needs to be larger than all of us.

SECRETARY’S REPORT

STUDENT LIFE REPORTS

The following GCC Students from the Associated Student Government were in attendance:
Jason Tadano, President
Lauren Hazard, Vice President
Lillia Mrza, Treasurer
Lonnie Moorehead II, Public Relations
Sheldon Pyles, Secretary

The students reported that in the past they have typically held their events at the main campus, however, this year they are reaching out to the 30% of GCC’s students who attend the North Campus. They reported they have 42 active clubs, including a new Japanese Culture Club and Veterans’ Club. They are holding town hall meetings and reported that the success of students on their campuses will be determined by their ability to work together even though they may disagree.

Board Member Debra Pearson addressed Jason Tadano and praised him for his professional manner of speaking and attire.

EMPLOYEE GROUP REPORTS

Phil Jalowiec, President-Elect of the Adjunct Faculty Association, provided the following comments and powerpoint slides:

“In February, we reported to the Governing Board that email infrastructure issues represent a significant barrier to Adjunct Faculty effectiveness and detracts from Student Success efforts.

Since then the District has taken significant steps to address this issue.
The primary step is the initiation of the project to move towards a common email infrastructure across the District. There has also been work done specific to Adjunct Faculty with the development of dynamically populated distribution lists.

**Adjunct Faculty Communication**

- **February Presentation**
  Email Communication with Adjunct Faculty represents a significant barrier to effectiveness and detracts from Student Success efforts.
- **dl-all-adjunct-fac@domain.maricopa.edu**
  - 6,283 Adjunct Faculty
  - Dynamically constructed based on Instructional Assignments and non-Residential Status
  - Automatic Rolling Calendar for additions and removal over multiple semesters
  - Individual lists for each college
- **Adjunct Faculty Communication Channel Check**
  - Test current effectiveness
  - Provide Baseline For Evaluating Changes in Email Infrastructure

**dl-all-adjunct-fac@domain.maricopa.edu** provides a single distribution list for all Adjunct Faculty in the district and is utilized sparingly to communicate only Adjunct Faculty specific summary content. It is populated with employees who have Instructional Assignments but are not Residential Faculty over a multiple semester scope using an automatic rolling calendar.

A test of the Distribution List was just completed and the following are highlights of the results.

**Adjunct Faculty Communication Channel Check Highlights**

- **District Wide Adjunct Faculty Survey**
  - October 10th through 22nd with 4 individualized solicitations
  - Communication
  - Load Limits
  - Education
- **2,027 Adjunct Faculty Responded**
  - 6,283 Adjunct Faculty in October (6,770 in August)
  - 342 New Adjunct Faculty from August to October
  - 629 Adjunct Faculty Removed from August to October
  - 565 Changed Email Addresses from August to October
- **28.5% Overall Response Rate (38.4%)**
  - 51.8% - 26.7% Excluding MC and RIO
  - 19.0% MC and 12.2% RIO (2,200/336)

2,027 Adjunct Faculty responded to the test that was conducted from October 10th through October 22nd, 2011 using 4 individualized solicitations to a total of 7,112 individuals on the distribution list in August and October. The comparison of the August and October lists
highlights that:

- Orienting and Training 342 new Adjunct Faculty effectively can represent a significant challenge.
- Over 1,100 changes to the lists as well as 565 email changes dictates that dynamic distribution lists for Adjunct Faculty are the only practical solutions.

The overall 28.5% response rate hides the actual responsiveness of Adjunct Faculty (>38%) because individual college analysis indicates that the District email addresses for Adjunct Faculty at Mesa and Rio Salado are incorrect. These account for over 33% of Adjunct Faculty. The results of the test will serve as a key baseline for testing the new email infrastructure as it is put in place.

The survey conducted as part of the Communication Channel Check offers some excellent insight into Adjunct Faculty Professional Development providing guidance as to when to offer Workshops and Training as well as which topics will most likely draw Adjunct Faculty participation.

The full results of the survey are posted at the AFA web site: [http://www.myafa.org/surveys/surveydistrictcommunication201110.html](http://www.myafa.org/surveys/surveydistrictcommunication201110.html)

I want to thank George Kahkedjian and his staff including Miguel Corzo and Jason Pociask for their diligent work in setting up, programming and refining the Adjunct Faculty distribution list infrastructure and its maintenance."

Crafts Association President Mr. Ted Georgas came forward to present to checks for student scholarships in honor of CGCC President Dr. Linda Lujan and SCC President Jan Gehler. They were honored for leadership, support and excellence.
Executive Vice Chancellor and Provost Dr. Maria Harper-Marinick introduced Brad Johnson, Faculty in the Medical Radiography Program at GateWay Community College, and Chair of the Allied Health Instructional Council. Mr. Johnson came forward to make the following comments:

“Embracing the Future of Health Care is a shining example of working as “One Maricopa”. Maricopa Allied Health includes 30 certificate and degree programs offered throughout the District including programs such as Medical Laboratory Science, Surgical Technology, Radiation Therapy, and Dental Assisting to name a few. This two-day event will provide learning opportunities for students, faculty, and clinical partners. The main goal of the event is to increase awareness of Maricopa Allied Health.

The student-focused day will take place on Tuesday, November 8th at GateWay Community College with participation from local University Transfer Partners; and health care leaders in the community such as Banner Health, Scottsdale Healthcare, Mayo Clinic, and Catholic Healthcare West. Students will hear presentations designed to facilitate their success during their course of study, as well as maximizing their chance for employment.

The event planned for Wednesday, November 9th at Phoenix College, presents an opportunity for Maricopa to showcase our outstanding Allied Health programs. We wanted to create an event that would help establish Maricopa as a leader in creating a forum for discussions related to Arizona’s emerging health care landscape and how it may impact Allied Health professions.

The main purpose of the November 9th event, however, is to allow Maricopa Allied Health programs to network with existing and potential clinical partners. We want to strengthen our relationship with existing partners as the educational institution that offers the best health care students and potentially establish new clinical relationships. Maricopa Allied Health provides a valuable link to the community through the education and training of the health care workforce. Our programs establish and follow high standards to meet the needs of the community and proudly represent the Maricopa County Community College District.

I would like to thank the Health Care Education department at the District Office, the Center for Curriculum and Transfer Articulation, and the Maricopa Center for Learning and Instruction for their support. I would also like to thank the Governing Board for their time and extend an invitation to attend the events planned during National Allied Health Professions Week. Thank you.”
Board Member Debra Pearson requested a report from Vice Chancellor Dr. Steve Helfgot regarding the recent Heroes kick-off dinner. Vice Chancellor Helfgot reported that their Heroes activities had been kicked off with a dinner attended by 100 community leaders. He indicated a meeting would be held soon to discuss how to solicit sponsors for the Annual Heroes Dinner. Governing Board Member Debra Pearson called attention to the young lady that was a student and a single mom with a four year old who would be graduating in December and then would be attending the UofA in the field of molecular biochemistry. She found her to be most incredible.

**College Reports**

Paradise Valley Community College President, Dr. Paul Dale introduced two students, Serb Brar and Michelle Dew, associated with the Diversity Incorporated Program which embraces diversity and social justice. The program is still in its infancy stages. It utilizes MOSAIC Training which has been presented throughout the District for employees. Students will now be able to go through this training in the hopes of promoting inclusiveness awareness.

Glendale Community College President Dr. Irene Kovala presented an Emeritus Distinction Award to Dr. Juan Gurule for his contribution to students and faculty in the Maricopa Community College District which warranted the designation of emeritus status upon his retirement from Glendale Community College. He served for 35 years at GCC as a dedicated employee and during his year tenure with MCCCCD at GCC, GWCC and Maricopa Technical Community College, Dr. Gurule served many roles as Counselor/Faculty member, Department Chair, and Assistant to the President and Dean of Instruction. Dr. Kovala also announced a second award for Char Howey who was not present. Dr. Howey served for 15.5 years at GCC as a dedicated employee and contributed significantly to the creation of a fully developed ESL program allowing GCC to recruit international students who needed 12 credits of ESL classes. The ESL classes she developed have also served the immigrant population in our community. Professor Howey also gave to the community through her support of and participation in the annual Glendale Community College READFEST, which brought thousands of children from neighboring elementary schools. READFEST was a celebration and promotion of literacy for children in kindergarten through fourth grade. Approximately forty thousand children came to the event during the ten year tenure of READFEST.

**AADGB Report**

Governing Board Member Doyle Burke reported that AADGB had met in Flagstaff earlier in the month where they discussed a new website and baccalaureate degrees in general, although most of the college systems were not interested in implementing them for now.
